## Options for March & Spring Break:

Option 1: (Tom's preference - to keep 1st 3 qtrs at 9 weeks for the sake of teacher's pre-planned curriculum - and he said this: Option 1 matches the way we have done the schedule for the past few years (8 week 3rd quarter to finish up right before spring break). I don't think option 3 matches this year. If I was doing the calendar, I would choose option 1, but I never worried too much about matching spring break with UK. Some years they match, some they don't. I tried to be consistent about the number of weeks in each quarter from year to year, but I know that we weren't always. I tried to avoid having the last week of a quarter right after a break to keep the students from having to study for an end of quarter test during break. That is my two cents.

Thanks,  
Tom
